FCC - CHAIR PERSON

I Have Some Questions about  
the new licences ; Experimental

- ① Will I Have all rights to new  
products under Experimental licences
- Ⓐ sub lease rights?
  - Ⓑ sub lease sales
  - Ⓒ how many years is the period

② What happens if you don't approve  
permit? Do you retain information  
or invention?

Ⓐ if I was first and  
some one comes with a look  
a like system, with a twist,  
do I retain any permit.

Ⓑ if no American investor  
can I get a foreign investor  
if I retain 51% shares?

③ Are you going to work with Patent-trade mark office U.S.?

② Will you (SvB Patent-Copy Right?) are you going to give a sub permit?

④ Do I get a automatic renewal of permit? unless I've broken a law or rule, which I have the right to take to court.

⑤ Do I have all rights to royalties off of ideas people imitate off my inventions?

① Meaning if my idea is the building block for a over all new product, do they have to get my ok and yours? To work off the first cell

③ This will also protect their ideas or inventions! from my uses and other people.

⑥ On ownership, can I donate parts of it to non profit groups like.

royalties to schools and government agencies. as long as you know who owners are?

If there are no problem with these request.

I see a very Bright Future for the FCC. Very Bright!!

My plan is to take the FCC!! in to places never even thought of before

Like the Stock market!

you can notify the SEC that a all new program is in the works

Open the Door I will Come  
I request a copy of permit - 5 copies
